

It is with great pride and excitement that I would like to introduce myself as the new principal of the Margret L. Vetter Elementary School. I feel very fortunate to be a part of this outstanding school community and am looking forward to continuing the strides toward educational excellence that has been established by my predecessor, Mr. Scott McCue.

For those curious about “*the new principal,*” I come with 16 years of experience in education consisting of experience at both the elementary and middle school levels. Over the past 6 years here in Eatontown, I have served 5 years as the discipline coordinator at Memorial Middle School, 1 year as a physical education teacher at Woodmere, and 3 years as the Supervisor of the NJ ASK Saturday Institute. As a result, I have had the opportunity to build relationships, earn trust, and create rapport with the administrative team, staff members, a large variety of students, and numerous families from around our district. I look forward to further opportunities to build additional bridges with the parents and community of Vetter School to help ensure our success as we move forward together.

It is my belief that every child has the ability to succeed! I intend to use this principle to serve as a driving force to empower each student to strive towards excellence. We, at Vetter, all recognize that every student who enters our school is a unique individual. We celebrate each individual’s traits and characteristics and use those strengths as the building blocks for educational, social, and emotional growth.

With my unique background in the district, I have had opportunities to work with many of the teachers here in Vetter and am aware of the tremendous amount of creativity and hard work that goes into their lesson designs. We will continue our strides to challenge our students, set high expectations, differentiate instruction and set specific goals based on individual needs. In turn, I believe this will give the students the opportunity to experience personal academic success. When students are excited about school, their motivation to learn will increase.

As we prepare to embark on this new year together, I would like to challenge our parents to get involved. Our PTO serves as the bridge between the Eatontown Community and our school. It is through these partnerships that a shared vision of student achievement can be fostered.

I have an open door policy and am looking forward to meeting each of you. Feel free to contact me at any time. It is my hope that the relationships that I can establish will only encourage and enhance the experience that the students, staff, and parents have in our school.

It is a pleasure to be aboard!!

Sincerely,  
Kevin J. Iozzi  
Principal, Margret L. Vetter School
